Ariteks, founded as family owned business in 1975, is the leading textile manufacturer company both in fashion and technical textiles.

By continuously developing high-end technologies it provides solutions to end users in apparel, protective workwear, functional sport, medical wear as well as technical textiles in construction and transportation industries.

As the pioneer company in special dyeing methods like indigo, vat, space-dye, coating and laminating systems, Ariteks produces highest-quality fabrics both for international and domestic markets.

Ariteks uses clean and renewable energy resources. It consumes minimum amount of water by using continuous optimised systems.

Based in 4000m² with 12 separate in house R&D laboratories, the company spends 5% of its budget for research and developing future technologies. It focuses especially on 3rd generation solar cells on flexible fabrics and biosensing textiles.

Description

Aramid Viscose Fr blend fabric consisting of 150 gr/m², 53% Viscose Fr 40% m-Aramid, 5% p-Aramid, 2% Carbon. Inherent flame retardant fabric for firefighters cloth inside lining, oil and gas industry workers. With high content of Viscose Fr fiber, the fabric is ultra comfortable to wear and absorb sweat. Inherent flame retardant fabric with EN ISO 11612 certification. Antistatic (EN 1149-5) certified. Resistant to most industrial chemicals (EN ISO 13034).

The technical data on this guide is given for information and correct at the time of design. It can be changed without prior notice.

Description

Aramid Viscose Fr twill fabric consisting of 250 gr/m², 53% Viscose Fr, 40% m-Aramid, 5% p-Aramid, 2% Carbon. Inherent flame retardant fabric for oil and gas industry workers. With viscose fr content is suitable to use in outdoor very hot climates. Inherent flame retardant fabric with EN ISO 11612 certification. Antistatic (EN 1149-3). Protection against thermal hazards of electrical arc (EN 61482-1-2). Resistant to most industrial chemicals (EN ISO 13034).
